## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter B. Martine on June 4, 2009.

This action is made in order to correct previous errors made by the Examiner in the initial Examiner's Amendment and Notice of Allowance. The corrections are being made to correct the renumbered claims which currently depend on canceled claims from the previous amendment. Renumbered claims 2 and 10, originally claims 3 and 14, are to be corrected as explained below.

The application has been amended as follows:

Renumbered **Claim 2**, original claim 3, is amended to correct the dependency of depending from a canceled claim.

Claim 2 should hereby be stated:

"A print job management apparatus in accordance with claim 1, wherein the identification information includes at least one of a file name of each image data, a size

of the image data, identification information for identifying a digital camera used to record the image data, and date of recording the image data with the digital camera."

Renumbered **Claim 10**, original claim 14, is amended to correct the dependency of depending from a canceled claim.

Claim 10 should hereby be stated:

"A print job management method in accordance with claim **9**, wherein the identification information includes at least one of a file name of each image data, a size of the image data, identification information for identifying a digital camera used to record the image data, and date of recording the image data with the digital camera."
